RAMBAM KICKS OFF A NEW SCHOOL YEAR

The new school year got off to an exciting start with a warm and welcoming orientation, followed by a wonderful first day of school. Orientation gave students the opportunity to meet their teachers, reconnect with friends, become familiar with their schedules, and get comfortable with the routines and expectations for the year ahead.

Freshman Bowling Trip

Off to a strong start!

The freshmen also enjoyed a fun bonding experience at Woodmere Lanes, where they had the opportunity to spend time with their classmates, get to know one another, and begin building friendships for the year ahead. The first day of school was filled with excitement and positive energy as students settled into their classrooms and began their new classes. Hallways were buzzing with greetings, smiles, and the excitement of seeing familiar faces and meeting new ones. Teachers welcomed their students and helped everyone feel at home as they introduced the year's learning, activities, and goals. It was a great beginning to what promises to be a meaningful and successful school year.

We look forward to a year filled with learning, growth, friendship, and many special moments together.

David Berkovich (Freshman)

REMEMBERING SEPTEMBER ELEVENTH: TWENTY-FIVE YEARS LATER

This week, Rambam Mesivta held a special assembly commemorating the 25th anniversary of the September 11 attacks. Mr. China, Rambam's APUSH teacher, addressed the student body and spoke about his experiences surrounding 9/11 and the lasting impact the attacks had on New York and the country.

He also emphasized the importance of continuing to remember the events of that day, especially as more time passes and younger generations have no personal memory of them.

The assembly gave students an opportunity to reflect on the tragedy, the bravery shown in its aftermath, and the responsibility to keep the memory of September 11 alive for future generations.

RAMBAM HEADS TO CIJE TANK!

Rambam Mesivta juniors David Rabinow and Effie Neuman are headed to CIJE Tank on November 15 after their invention, BioCap, was chosen as one of just 14 projects to present. BioCap is a smart milk cap designed to detect whether milk has spoiled. The cap works by measuring changes in the milk's conductivity. As bacteria grow and milk begins to spoil, its chemical properties change, allowing BioCap to compare its readings to a baseline and determine whether the milk is still fresh.

BioCap went through months of development, testing, and refinement before being presented at CIJE Innovation Day last year, where David and Effie won Best Pitch. Since then, the project has continued to be improved. Now, they will have the opportunity to take the next step and pitch BioCap before a panel of entrepreneurs at CIJE Tank, where projects are judged not only on their engineering but also on their potential to be brought to market. We wish David and Effie the best of luck as they represent Rambam at CIJE Tank!

David Rabinow (Junior)

SCHOOL-WIDE KUMZITZ

This Thursday, before leaving for Rosh Hashanah, we enjoyed an amazing school-wide kumzitz together in the shul, led by Mordechai Levovitz. The morning was filled with beautiful music, singing, and a meaningful atmosphere as we prepared for the upcoming Yom Tov. Following the kumzitz, everyone enjoyed fresh donuts together, adding a fun and delicious touch to the day.

Wishing everyone a kesiva v'chasima tova!

Effie Neuman (Junior)
